SERVICE BULLETIN

Ride Manufacturer: J&J Amusements, Inc.	Affected production dates: All
Ride Name: Master Blaster Electric Bumper Boat	Affected Serial Numbers: All
Model Number: All electric boats using the 18v wiring configuration	
Abstract Of Issue: Removal of Capacitor	
Reason For Release: Boats using the 18v configuration in heavy use application can have a low volt situation which is unable to activate the relay with capacitor in place.	
Action To Be Taken: (Inspection, Modification, Replacement, NDT, Order Parts, Manual Revision, Procedural Change, etc.) Using a pair of wire cutters clip the leads coming out of the capacitor. Next remove the current limiter and plug load wire (yellow) directly to relay.	
Detail of Issue: (Text, Drawings/Schematics) See attached photos.
